TRUSTED HOME & WELLNESS CARE

Healthcare that meets you *at home*, at work, and on your terms

Careworkers visit clients at home to assist with daily living and agreed support. Our nurses focus on **IV therapy** (at home), **corporate wellness programmes**, and **wellness / beauty IV** — they do **not** replace careworkers for general assistance. Everything is delivered safely, professionally, and with dignity.

- Home visits & discreet care
- Clear roles: careworkers vs nurses
- Families, individuals & companies

WHO DOES WHAT

Careworkers — hands-on assistance for patients at home (daily living & support).

Nurses — IV at home — clinical IV therapy visits only (not general assistance).

Nurses — wellness programmes — corporate wellness & screenings for organisations.

Nurses — wellness / beauty IV — where clinically appropriate, with consent.
